

RTS™ PIPE ROLLERS

The RTS pipe rollers by Right Turn Supply know a thing about carrying a heavy load. These rollers are engineered specifically for the pipeline industry by veteran pipeliners and HDD professionals and are designed to cradle, support and guide pipeline sections through river and road crossings with ease. The rollers, which come in four sizes, easily support pipe diameters from 4" to 54" and are handcrafted by master welders using steel made right here in the great U S of A, (quality you should be used to from Right Turn Supply).

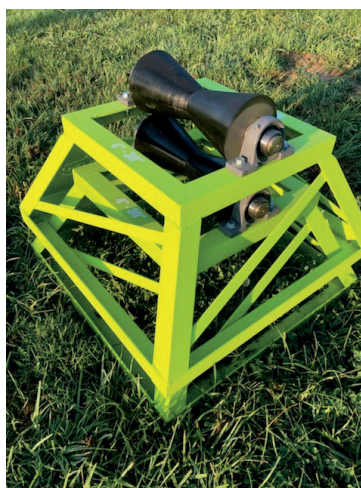

PRODUCT ADVANTAGES

- Made with US steel
- All rollers primed and painted
- Custom paint schemes available
- Designed by a professional engineer
- Assembled by master welders

(6" - 36" double roller shown above)
