## SPECIAL FORCES

### PRODUCT BREAKDOWN

### UTILITY

#### SOME JOBS REQUIRE BACK-UP.

At Right Turn Supply we know that sometimes certain jobs require a little bit of back-up. Enter the Special Forces united of HDD utility drilling fluids developed with these exact situations in mind. These specially formulated fluids are designed to work in the trickiest of conditions and can perform on their own or as part of a cocktail mixed with our original line of HDD utility drilling fluids. As always, these products will allow for your job to remain clean, safe and efficient, because who has time for anything else?

- No dust
- No sand content
- Extends pump life
- Environmentally friendly
- Extends transmitter life
- Easy to mix
- Higher concentration = Smaller footprint
- Higher production rates
- Longer tooling life

### MINE SWEEPER™

Clearing your bore path through miles of sandy battlefields.

Hydrocarbon free based drilling fluid

A 1-sack replacement for Hydrocarbon-free drilling conditions

Suspends, carries, and assists in fluid loss

Can be used as a stand-alone product, with other additives, or with bentonite

#### GENERAL MIXING INSTRUCTIONS | PER 500 GAL

LIGHT CLAY	1 JUG
HEAVY CLAY	1 JUG
SWELLING CLAY	1 JUG
CLAY - SAND - SILT	1 JUG
SAND - SILT	2 JUG
SAND	2 JUG
SUGAR SAND	2 JUG
GRAVEL - COBBLE	2 JUG
SHALES	1 JUG
ROCK	2 JUG

**\*FOR USE IN HYDROCARBON-FREE DRILLING CONDITIONS**

### SAND GRENADE XL™

When you need to storm the beach.

Ideal for heavy sands or gravel drilling conditions

Excellent viscosifier

Suspends, carries, and assists in fluid loss

Can be used as a stand-alone product, with other additives, or with bentonite

#### GENERAL MIXING INSTRUCTIONS | PER 500 GAL

LIGHT CLAY	
HEAVY CLAY	
SWELLING CLAY	
CLAY - SAND - SILT	1/2 JUG
SAND - SILT	1 JUG
SAND	2 JUG
SUGAR SAND	2 JUG
GRAVEL - COBBLE	2 JUG
SHALES	1/2 JUG
ROCK	2 JUG

**\*BEST RESULTS IN HEAVY WEIGHT SOLIDS**

**SIMPLE SOLUTIONS KEEP YOU TURNING TO THE RIGHT.**

### UTILITY

## COBBLE COMMANDER™

When there is rock, you are ready to roll.

To be used with bentonite

Excellent cutting transport/cutting suspension

Recommended for rock, sand, gravel, and cobble formations

Increases the mud's ability to transport cuttings without drastically raising viscosity

#### GENERAL MIXING INSTRUCTIONS | PER 500 GAL

LIGHT CLAY	
HEAVY CLAY	
SWELLING CLAY	
CLAY - SAND - SILT	1/2 JUG
SAND - SILT	1 JUG
SAND	1 JUG
SUGAR SAND	2 JUG
GRAVEL - COBBLE	1 JUG
SHALES	1 JUG
ROCK	1 JUG

**\*MUST USE WITH BENTONITE**

## HDD LUBE™

High speed, low drag for when you need to make hole.

Reduces torque and drag

Coats drill rods/tooling to help prevent bit balling

Environmentally friendly

Compatible with all water-based drilling fluid

#### GENERAL MIXING INSTRUCTIONS | PER 500 GAL
