

TECH DATA SHEET

PRODUCT DESCRIPTION: **LUBE FORCE** is an engineered blend of environmentally friendly lubricants designed to help you drill faster and pull pipe easier.

Through rigorous lab and field testing, **LUBE FORCE** has been formulated to vastly reduce rotational torque and drag while requiring less product usage than competitors. In addition, **LUBE FORCE** has an affinity for metallic surfaces and coats all of the drill rods and bits which can reduce wear and extend the life of the tools.

APPLICATIONS AND USE: Typical application range from 1 – 10 gal **LUBE FORCE** per 1,000 gal of drilling fluid.

PRODUCT ADVANTAGES:

- Highest potency lubricant on the market.
- Utilize significantly less lubricant for better results.
- Compatible with all water- based fluid systems.
- Consistently outperforms competitors in lab testing as well as the field.

PHYSICAL PROPERTIES:

Appearance:	Yellow/dark
Bulk Density:	0.84 – 0.906
pH:	NA

PACKAGING: **LUBE FORCE** is available in 5 gal. pails
