

PILOT BITS BY RIGHT TURN SUPPLY

PRODUCT BREAKDOWN

TOOLING

THE RIGHT TOOLING FOR ANY JOB

At Right Turn Supply, we're proud to offer a selection of pilot bits designed to meet a wide range of performance and budget requirements. Each option is engineered to deliver consistent, reliable results, empowering you to stay competitive without compromising on quality. With swift delivery backed by our extensive inventory, you'll always have the right tools on hand when you need them. In addition, all of our tricone bits feature sealed journal bearings to extend component life and ensure optimal performance. We partner exclusively with manufacturers who adhere to stringent quality control and tight manufacturing tolerances—so you can trust that every bit meets the highest standards of precision and durability.

AVAILABLE BIT OPTIONS INCLUDE:

- Sizes ranging from 4-3/4" to 12-1/4" to meet wide variety of project requirements
- Sealed bearing TCI and Mill Tooth tricone bits, offering dependable performance across diverse ground conditions
- PDC options to enhance efficiency and maximize service life
- Cost-effective options, delivering reliable quality at an economical price point
- US manufactured bits with HDD specific designs, engineered for precision and durability
- Top-tier offerings from trusted names like Smith and Varel, for those demanding the highest level of performance and longevity
