

QUICK CONNECT

DESIGNED BY DRILLERS, FOR DRILLERS.

PULL HEADS FOR MAXI RIGS

QuickConnect pull heads are engineered to withstand forces in excess of twice the maximum pull force and eliminates in-hole fusing.

With sizes ranging from 4" to 36", QuickConnect Pull Heads delivers:

- Strength Under Load - Built for large-diameter pipe and heavy pullbacks
- Speed & Safety - Eliminate trench fusing and reduce labor hours
- Clean Connections - Keep mud and drilling fluids out of the line
- Versatility - Works with HDPE, PVC, FPVC, and multi-conduits

MULTI-PIPE PULLERS FOR MAXI RIGS

The QuickConnect Multi-Pipe Puller is the heavy-duty solution for contractors installing multiple lines at once.

With sizes ranging from 4" to 36", QuickConnect Multi-Pipe Pullers delivers:

- Reusable & Long-Lasting Performance - Engineered to perform across multiple pulls
- Time Savings - No trench fusion, faster installs
- Cost Efficiency - Cut labor hours and material expenses
- Hassle-Free Operation - Quick setup and easy swaps on site
- Built by Drillers - Designed for the demands of maxi rig jobs
