

TECH DATA SHEET

PRODUCT DESCRIPTION: **HDD LUBE** is an engineered blend of environmentally friendly lubricants designed to help you drill faster and pull pipe easier.

Through rigorous lab and field testing, **HDD LUBE** has been formulated to vastly reduce rotational torque and drag while requiring less product usage than competitors. In addition, **HDD LUBE** has an affinity for metallic surfaces and coats all of the drill rods and bits which can reduce wear and extend the life of the tools.

APPLICATIONS AND USE: Typical application range from 1 – 2 gallons **HDD LUBE** per 1,000 gallons of drilling fluid.

PRODUCT ADVANTAGES:

- Highest potency lubricant on the market.
- Utilize significantly less lubricant for better results.
- Compatible with all water- based fluid systems.
- Consistently outperforms competitors in lab testing as well as the field.

PHYSICAL PROPERTIES:

Appearance:	Yellow liquid
Bulk Density:	0.894 – 0.906

PACKAGING:

HDD LUBE is available in 1/2 gal. jugs, 5 gal. buckets, 55 gal. drum, 275 gal. tote
